Independent Consultants :: Project Management :: Interim Management

Profile

Trevor is a Senior Consultant with experience at a Commercial and Technical level.

An accomplished Supply Chain Professional. Procurement Specialist. Change Agent. Projects Management. Manufacturing Operations, Process Specialist. Lean Manufacturing Champion. Accomplished in championing change management in organisations with entrenched and change-resistant cultures in single and multi-site environments. Effective man-manager at a strategic level, previous experience included direct line management of 12 General managers (1200 staff).

Able to deliver sustainable results in the most diverse and demanding of environments. More than 20 years multi-sector senior management experience and will bring leadership, commitment and added value to his employer at both a strategic and tactical level.
